INTERAVIA

World Review of Aviation • Astronautics • Avionics

INDEX FOR 1981

PRINCIPAL TOPICS

1 Fighter outlook for the 1990s
Training of military pilots
Survey of military aircraft in service throughout the world

2 Commuter aircraft
Airline engineering
Air cargo

3 Two or three pilots in the cockpit of future aircraft
The Atlantic ANG anti-submarine and maritime surveillance aircraft

4 The manned bomber
Aircraft hijacking

5 The French aerospace industry
The Boeing 757 program
The *Interavia* ground radar catalogue

6 The 150-seat airliner
The 15-tonne engine market
Delta and Braniff

7 Paris Show Report
Combat helicopters
Aircraft industry of Brazil

8 Engine technology
New civil aircraft
Air cargo

9 Business aircraft outlook
The new "light fighter"
The Boeing 767 approaches its first flight

10 All-weather operations
Prospects for air transport
Lear Fan 2100

11 Civil aviation in China
The major airlines–an *Interavia* survey
Shorts 360: simple, cheap, and first

12 Agricultural aviation–strong recovery seems likely
Air transport in Asia–Japan and Singapore take different approaches
Turboprop resurgence: the next step

SUBJECT INDEX

AIR TRANSPORT

US air transport may go on strike: 1/7
Airline orders table: 1/8, 2/102, 3/189, 4/284, 5/378, 6/516, 8/746, 9/852, 10/956, 12/1194
Third quarter slump for US airlines: 1/7
Visual systems at Lufthansa's simulator centre – *Julius Gegerle:* 1/42
Texas International Airlines – "Lean and mean" for the 1980s – *Rodger Goodson:* 1/79
Commuter airlines in the 1980s: How big? How small? What is a 'commuter'?: 2/117
Commuter showroom: From 15 to 50 seats – *M. Grangier, M. Lambert:* 2/119
The choice up to 19 seats – *M. Grangier, M. Lambert:* 2/124
Commuter airline operations: Metro Airlines – working with the trunks – *P. Maurice:* 2/126
Precarious French commuter scene – *G. Chambost:* 2/127
GE views the commuter market – *J. P. Geddes:* 2/128
Commuters are small airliners: 2/130
Lufthansa Engineering: Advanced technology beats spiralling costs – *K. Regelin:* 2/138
Air cargo outlook for the 1980s: Law of the jungle or the marketplace? – *R. Goodson:* 2/161
Cargolux – Steady progress into the eighties – *D. Birch:* 2/165
1980 preliminary airline financial results: 3/189
Development of world scheduled traffic – 1976-80: 3/189
Air France moves down-market: 3/189
BA cash flow problems: 3/191
Two-man crew battle intensifies – *D. Chopping:* 3/207
Swissair's 50th anniversary – *K. Höhle:* 3/254
1980 airline results: 4/284
Echoes from AIRMEC – The designer's responsibility for maintenance and reliability – *C. Bulloch:* 4/347
Delta's ideal 150-seater: 5/376
New routes to Europe for Laker and B.CAL?: 5/377
Britannia braves the waves: 5/378
The New European Product (NEP): 5/378
British Caledonian Airways: Fighting for lower air fares – *R. Goodson:* 5/462
British Airways looks to the 757 – *D. Wood:* 5/482
Air France and Lufthansa take opposing views on need for A320: 6/515
IATA scheduled and charter North Atlantic traffic in 1980: 6/516
Lining up for the 150-seat market – *M. Lambert:* 6/537
Boeing plays safe – *C. Bulloch, J. P. Geddes:* 6/538
F29 – Will the latest Dutchman fly? – *C. Bulloch:* 6/540
The ATR 42: Progress report on a new aircraft – *M. Grangier:* 6/543
Up and down with the US majors: Toward a healthier air transport industry – *R. Goodson:* 6/564
Five US major airlines deplore open skies: 7/646
UK CAA rejects Laker but encourages B.CAL to fly down under: 7/646
Hub and spoke: Tightening the wheel at the US majors – *R. Goodson:* 7/670
Pioneering in Indonesia – *H. P. Mama:* 7/672

The case for the European Air Transport Licencing Board – *R. S. Sowter*: 7/674
Alternative aircraft fuels: When will the action start? – *C. Bulloch* – 7/715
The Dornier 228-100 and -200: Going after the 15-19 passenger commuter aircraft market – *M. Grangier*: 7/724
Civil service dispute adds to BA's woes: 7/746
Canadian deregulation?: 8/746
FAA decides on collision avoidance system: 8/746
New US no-frills airlines invade depressed market: 8/747
"To charge any less is giving it away": The UK struggle for cargo profits – *R. Goodson*: 8/805
Frankfurt Cargo Centre sets new standards – *L. Knepper*: 8/808
How will the airlines pay for those new jets? – *B. Rek*: 8/824
Truce in crew complement war: will it last?: 9/852
Signs of recovery in US major airlines' first-half results: 9/853
US airline results: 6 months to June 1981 in $ millions: 9/853
US Scheduled Airline Industry Passenger Traffic Statistics for 1981 first half: 9/853
Boeing 767 lines up to fly – *P. Geddes*: 9/911
Civil Chinook flies the oil rigs – *P. Maurice*: 9/914
Civil Aviation in Saudi Arabia: An integral part of development plans – *B. Davidson*: 9/916
Airline maintenance for sale – *R. Goodson*: 9/927
Airmotive Ireland – *P. Maurice*: 9/930
The US ATC dispute – Aftermath and implications: 10/953
Pan American sells out to stay in business: 10/956
Enter TCAS: Panic manoeuvre or logical development? – *C. Bulloch*: 10/982
Civil head-up display: Coming up fast – *M. Lambert*: 10/984
Survival, growth and the airlines' future – *B. Rek*: 10/1013
British Airways fares: Gerry Draper talks to Interavia – *B. Rek*: 10/1016
Air Transport expansion in Morocco – *R. Goodson*: 10/1018
Civil aviation in China – *R. Goodson*: 11/1098
Federal Express to fly Concorde? – *P. Maurice*: 11/1103
Being biggest isn't easy: the new Flying Tigers takes on the current cargo scene – *R. Goodson*: 11/1105
What next for the airlines? – *B. Rek*: 11/1115
The major airlines – an Interavia survey – 11/1117
Air transport in Asia – Japan and Singapore take different approaches – *Rodger Goodson*: 12/1229
"Zero cash flow": the IATA AGM '81: 12/1192

GENERAL AVIATION

The Equator – a revival of German GenAv: 2/107
Aeropersonnel – an agency for aircrew 'temps': 2/108
Business jets: Models for the 1980s – *M. Grangier*: 2/157
Helicopter show highlights sales boom. – *Mark Lambert* reports from the Helicopter Association International annual meeting: 3/196
Super Puma – all set to go – *M. Grangier*: 3/221
Single-engine or light twin? A difficult choice for the buyer – *M. Grangier*: 3/256
Lear Fan 2100: Bound to succeed or doomed to fail? – *M. Grangier*: 3/268
Gulfstream American acquires Rockwell International's General Aviation Division: 4/289
GAMA aircraft deliveries in 1980: 4/290
The Canadair Challenger goes into service – *M. Grangier*: 4/333
The new Super King Air 200: 6/517
The Xingu: Business jet with a training role – *M. Grangier*: 6/590
Israel Aircraft Industries: per Westwind ad Astra – *M. Grangier*: 6/609
The Future is Ultra-Light: 8/752
Gulfstream American spreads its wings: 8/752
Will your twin climb on one engine: 8/753
Swearingen gears up for market attack: 9/860
Commander Jetprop 1000 gets under way: 9/860
Business aviation today – *M. Grangier*: 9/863
Executive aircraft: how expensive are they – *B. Rek*: 9/875
Main features and performance figures for the main business jet aircraft available on the world market: 9/878
Big jets as business jets – *B. Rek*: 9/880
Canadair postpones Challenger E: 10/962
The Lear Fan 2100: "Don't tell me it can't be done" Bill Lear – *P. Geddes, D. Wood*: 10/1029
Fourteen years young: Jetstream shakes off the cobwebs – *B. Rek*: 10/1034
The 34th NBAA show: general aviation is alive and well – *Marc Grangier*: 11/1079
Agricultural aviation – strong recovery seems likely – *Marc Grangier*: 12/1212
NDN 6 Fieldmaster – Chasing the big Ag aircraft market – *Mark Lambert*: 12/1215
General aviation rolls with the punch: 12/1198

AIRPORTS

Major European airports, ranked in order of 1980 passenger traffic: 3/190
Paris airports in 1980: 3/190
New-generation airport comes of age – *R. Goodson*: 3/210
The costs of airport security: How do you estimate it and who pays the bill? – *R. Goodson*: 4/322
The new Hartsfield Atlanta International Airport: The world's busiest transfer hub – *R. Goodson*: 4/336
Paris airports after cessation of commercial traffic at Le Bourget: 5/379
Heathrow's corset unfastens slowly – *B. Rek*: 7/667
Jeddah's new international airport: A marriage of beauty and technology – *B. Davidson*: 8/794
Frankfurt Cargo Centre sets new standards – *L. Knepper*: 8/808
MLS nearly here – at last – *C. Bulloch*: 10/986

AIR TRAFFIC CONTROL

New ATC centre for Reims: 1/8
IAL Stratus system for ATC – *P. Maurice*: 2/160
The future of Eurocontrol – *N. Tebbit*: 3/251
Interavia surface radar catalogue: 5/434
AIRCAT 500 ATC systems for Australia and Mexico – *R. Gourjon, G. Hölier*: 5/459

MILITARY AVIATION

Surge in US defence spending
Australia's fighter competition to re-open?: 1/10
Fighters for the 1990s – *M. Lambert*: 1/19
Primary training of military pilots: Changing theories and new trainers – *M. Grangier*: 1/29
The flying hologram – latest in head-up display systems – *D. Boyle*: 1/44
Interavia's Review of World Air Forces – 1981: 1/55
ECA: What next?: 2/104
The future of the Franco-German anti-tank helicopter project: 2/105
HXM helicopter competition authorised: 2/106
Identification faces delays: 2/107
PAH-1 Helicopter enters German Army service: 2/171
US arms sales increasing: 3/193
Atlantic Nouvelle Génération: France's own high seas warplane – *M. Lambert*: 3/215
Supersonic V/STOL prospects brighten – *M. Wilson*: 3/219
F-16 improvement program: making the digits count – *M. Lambert*: 3/258
Tornado blasts German defence planning: 4/286
USAF faces tanker choice: 4/288
Why the manned bomber? – *M. Lambert*: 4/297
EH-101: a new European Helicopter – *D. Wood*: 4/304
NATO AWACS milestone passed: 5/380
Counter-revolutionary air power – *M. Lambert*: 5/475
The survivable, affordable fighter: The Aeritalia-Macchi-Embraer AM-X – *M. Lambert*: 6/588
A European market for A.129 Mangusta? – *M. Lambert*: 6/591
Germany decides PAH-1 tactics: 7/648
British defence analysis – basic but not terminal: 7/648
Military helicopters take new directions – *M. Lambert, M. Grangier*: 7/691
Warsaw Pact stresses combat helicopters – *M. Lambert*: 7/692
NATO's anti-tank helicopters: Same battle, different tactics – *M. Grangier*: 7/694
World military helicopter fleet: 7/696
Brazil launches new pilot training scheme – *M. Lambert*: 7/711
Ozirak-how they did it: 8/749
RAF future – a sigh of relief?: 8/751
Air-to-air missiles for the 1990s – *M. Hewish*: 8/811
Settled: AV-8Bs for Britain as well as USA: 9/858
Jetliners will make Europe's fighters more productive, claims Boeing – *B. Rek*: 9/895
Aerospatiale's helicopter battle fleet – *M. Lambert*: 9/896
Survivors on the RPV front – *D. Chopping*: 9/898
Northrop F-5G Tigershark faces the competition – *M. Lambert*: 9/900
Gardian bizjet watches waves – *M. Grangier*: 9/902
Jaguars versus F-16s: 10/959
AV-8B/Harrier GR.5 are on the way: 10/959
F-18 costs: 10/959
German Army introduces PAH-1: 10/960
The chilling logic of neutron weapons: 10/960
Flying blind: the last and most expensive challenge – *M. Lambert*: 10/977
Problems of low-level operations – *D. Chopping*: 10/978
Will the helicopter cope with West German weather? – *M. Lambert*: 10/979
Fast, low – and dark: A brief guide to low-level, all-weather navigation techniques – *C. Bulloch*: 10/981
Sukhoi Su-24 Fencer – the Soviet Tornado – *G. Lafon*: 10/997
The new wave of trainers – *M. Lambert*: 10/1003
UKADGE: Britain's stronger home defence – *D. Wood*: 10/1020
A-10s in the German front line – *M. Lambert*: 11/1143
The Microjet 200B and the C22J – birds of a feather? – *M. Grangier*: 11/1152
F-16: Passing the 2,000 mark – *Mark Lambert*: 12/1248
Autonomous guidance systems for air launched missiles – *Chris Bulloch*: 12/1250
Piper designs Enforcer to knock out tanks – *Mark Lambert*: 12/1252
F/A-18 fits Australia's strategic needs: 12/1195
B-1B cost and performance: 12/1196
Stealth: more than meets the eye: 12/1196

SPACE

First Intelsat V launched: 1/13
NASA hopes for more: 3/194
Satellite operation for profit – *C. Bulloch*: 3/212
America perfidia (repeat performance): 4/291
Shuttle finally set to go?: 4/291
New spacecom venture: 5/381
Space Shuttle: Goodbye to Gee Whizz: 6/514
Ariane 03 launch preparations: 6/515
Space Shuttle: Preparing for second launch – *R. Lopez, C. Bulloch*: 7/727
Ariane qualified with third launch: 8/754
BAe aiming to become major satellite-operator?: 8/755
SICRAL: A proposed Italian defence satellite system – *A. Lorenzoni*: 8/793
SOLARIS: France proposes large unmanned space-processing platform: 3/821

Skynet IV – now an all-British military satcom system : 9/859
Second Shuttle launch program : 9/859
Spacelab status : some action at last – *C. Bulloch :* 11/1167
The Solar Power Satellite – A geostationary Channel Tunnel ? – *Chris Bulloch :* 12/1209
Ariane 4 proposed to ESA : 11/1077
Latest Shuttle delay : 11/1077
Has NASA a future ? : 12/1199

INDUSTRY

Stretching the 747 : 1/8
Airbus sales picking up again : 2/102
American aerospace record exports : 2/102
MBB and VFW : the longest-drawn-out shotgun marriage : 2/103
Commuter showroom : From 15 to 50 seats – *M. Grangier, M. Lambert :* 2/119
The choice up to 19 seats – *M. Grangier, M. Lambert :* 2/124
Commuters are small airliners : 2/130
Aérospatiale 1980 results and outlook : 3/193
The transport aircraft market, July-December 1980 : 3/193
Super Puma – all set to go – *M. Grangier :* 3/221
What next for Airbus, SA or TA ? : 4/284
Airline problems hit the US aircraft manufacturers : 4/284
US companies 1980 results : 4/286
The French aerospace industry : 5/371
Boeing invades the 150-seater market from below : 5/373
Delta's ideal 150-seater : 5/376
New North American orders for the Airbus : 5/377
A bright outlook with a few clouds : 5/394
Civil aviation aircraft construction : International cooperation all the way : 5/399
Military Aircraft : A period of technological transition : 5/400
French helicopters : New models for off-shore and public service work : 5/402
General Aviation : Doing remarkably well despite all problems : 5/404
Space still a growth industry in France : 5/406
Aircraft engines : SNECMA and Turboméca : 5/408
The French missile scene : a wide selection and some impressive results : 5/410
Aerospace equipment bearing up well : 5/413
The Dash 8 : designed for commuters – *M. Grangier :* 5/464
Boeing 757 : advancing on schedule – *J. P. Geddes :* 5/478
British Airways looks to the 757 – *D. Wood :* 5/482
Lining up for the 150-seater – *M. Lambert :* 6/537
Boeing plays safe – *C. Bulloch, J. P. Geddes :* 6/538
F29 – Will the latest Dutchman fly ? – 6/540
The ATR 42 : Progress report on a new aircraft – *M. Grangier :* 6/543
Progress with the Westland 30 – *D. Wood :* 6/611
Mixed fortunes for US big three : 7/647
MBB's plans for integrating VFW : 7/649
Salon de Paris 81 : Promising future . . . uncertainty now : 7/651
Brazilian aerospace today : The industry that can't stop growing – *M. Lambert :* 7/707
Aeritalia and the B.767 program – *M. Grangier :* 7/713
The Dornier 228-100 and -200 : Going after the 15-19 passenger commuter aircraft market – *M. Grangier :* 7/724
British Aerospace rolls out the 146 : 7/730
US-Partner for Airbus ? : 3/748
Westland to put own money into EH-101 : 8/748
Yugoslavs climb aboard Airbus : 8/748
Tilt rotor aircraft for offshore transport ? : 8/748
Mi-26 : the first true heavy lift helicopter – *M. Lambert :* 8/764
A320 : Europe's bid for the 150-passenger market – *M. Lambert :* 8/781
McDonnell Douglas tries again with the DC-10 – *B. Rek : 8/784*
The 146 emerges from the shadows – *B. Rek, D. Wood :* 8/786
Commuter Aircraft : Supply and demand out of balance – *M. Grangier :* 8/819
Italy carves up its aircraft industry : 9/854
Drift away from airliner production continues : 9/854
The big three US airliner manufacturers : first half 1981 results : 9/855
MBB sees clouds ahead : 9/855
Dornier tops DM 1,000 million : 9/856
MTU Group is cautiously optimistic : 9/856
Shorts 360 makes rapid test progress : 9/856
Boeing 767 lines up to fly – *P. Geddes :* 9/911
Airlines maintenance for sale – *R. Goodson :* 9/927
Airmotive Ireland – *P. Maurice :* 9/930
25.000 lb marriage for Pratt and Rolls ? : 10/957
Boeing 727RE on a knife edge : 10/958
Fighters for the 1990s – *M. Lambert :* 1/19
Turbulence detection by laser – *C. Bulloch :* 1/82
Lufthansa Engineering : Advanced technology beats spiralling costs – *K. Regelin :* 2/138
Composites coming of age – *C. Bulloch :* 2/143
Jaguar to fly by wire – *D. Wood :* 3/260
An operational tilt-rotor this decade ? – *M. Lambert :* 4/203
Materials development at British Aerospace – *D. Wood :* 5/466
Germany does its homework : The CCV Starfighter shows its paces – *M. Lambert : 6/567*
Fire-proof fuel – *P. Maurice :* 6/585
Alternative aircraft fuels : When will the action start ? – *C. Bulloch :* 7/715
SOLARIS : France proposes large unmanned space-processing platform : 8/821
The Lear Fan 2100 : "Don't tell me it can't be done" Bill Lear – *J. P. Geddes, D. Wood :* 10/1029
Shorts 360 : simple, cheap, and first – *D. Wood :* 11/1147
BAe plans a new lease of life for the 748 – *B. Rek :* 11/1150
Caledonian Airmotive progress report – *B. Rek : 11/1154*
AVCO : wingmakers to the world – *P. Maurice : 11/1174*
PT Nurtanio : the rising star of the Orient – Brian Davidson : 12/1236
The A300's Asian stronghold – *H. P. Mama and Bron Rek :* 12/1233
Airbus reworks A320 for range flexibility : 12/1193
737-300 further improved : 12/1194

ENGINES

The great engine battle : costly for the winner ? : 2/101
P&W by any other name : 2/103
GE views the commuter market – *J. P. Geddes :* 2/128
UK independent is first for new Rolls-Royce engine : 4/284
Rolls-Royce developing wide-chord fan : 4/283
Electronic engine control for commercial aircraft – *G. Dienger, B. Bialojan :* 4/313
Digital control even more vital for military engines : 4/318
Pratt & Whitney's PW100 prepares for the commuter market – *M. Grangier :* 4/320
SNECMA launches the CFM56-3 : 5/373
New 150-seater faces engine dilemma : 5/374
CFM56 : The ten-tonne fan for the 737-200 – *M. Lambert :* 6/542
Battle of the 15 tonne fans – *D. Wood, P. Maurice :* 6/561
Computerized J.E.T. engine test facility – *D. H. Chopping :* 7/718
Rolls-Royce advances towards a 60,000lb engine – *D. Wood :* 7/726
Small turbojets engines : Latest technological advances – *M. Grangier :* 8/768
The new generation of turboshaft and turboprop engines – *M. Grangier, P. Maurice :* 8/771
25.000 lb marriage for Pratt and Rolls ? : 10/957
Turboprop resurgence : the next step – *Bron Rek :* 12/1245
Caledonian Airmotive progress report – *Bron Rek :* 11/1154

ELECTRONICS – TECHNOLOGY

The flying hologram – latest in head-up display systems – *D. Boyle :* 1/44
Attack radars : increasing versatility, complexity and cost : 3/231
Interavia review of Western airborne attack radar systems : 3/232
Jaguar to fly by wire – *D. Wood :* 3/260
Sperry digitizes helicopter autopilot – *M. Lambert :* 4/319
Electronic displays and computerized NAV systems for commuters and business aircraft – *C. Bulloch :* 5/484
Fast, low – and dark : A brief guide to low-level, all-weather navigation techniques – *C. Bulloch :* 10/981
Enter TCAS : Panic manoeuvre or logical development ? – *C. Bulloch :* 10/982
Civil head-up displays : Coming up fast – *M. Lambert :* 10/894
Scanning radar or SLAR : which is best for sea surveillance ? – *R.P.A. van Dijk :* 10/1000

INTERNATIONAL CONFERENCES AND EXHIBITIONS

International Meetings and Conferences : 1/14, 2/108, 3/198, 4/292, 5/382, 6/520, 8/756, 9/862, 10/964, 11/1078, 12/1200
Helicopter show highlights sales boom. *Mark Lambert* reports from the Helicopter Association International annual meeting : 3/196
Echoes from AIRMEC – The designer's responsibility for maintenance and reliability – *C. Bulloch :* 4/347
A good year for the Paris Air Show : 6/518
Salon de Paris 81 : Promising future . . . uncertainty now : 7/651
Singapore focus for Asian aerospace market : 9/918
Asian Aerospace '81 – room for yet another airshow ? – *Brian Davidson :* 12/1239

DATA TABLES

Interavia's Review of World Air Forces – 1981 : 1/55
Development of world scheduled traffic – 1976-80 : 3/189
Major European airports, ranked in order of 1980 passenger traffic : 3/190
Interavia Review of Western airborne attack radar systems : 3/232
GAMA aircraft deliveries in 1980 : 4/290
Interavia surface radar catalogue : 5/434
World military helicopter fleet : 7/696
Main features and performances figures for the main business jet aircraft available on the world market : 9/878
The major airlines – an Interavia survey : 11/1117

REGULAR FEATURES

RDF could be catastrophic : 5/369
The World of Aerospace : 1/7, 2/101, 3/187, 4/281, 5/372, 6/513, 7/645, 8/745, 9/851, 10/955, 11/1069, 12/1191
Our correspondents report : 3/187, 4/281, 5/372, 6/513, 7/645, 8/745, 9/851, 10/955, 11/1069, 12/1191
New products & technology : 1/84, 2/145, 3/263, 4/338, 6/613, 7/719, 8/796, 9/931, 10/1037, 11/1170, 12/1257
Letters to the Editor : 2/173, 4/350, 5/486, 6/520, 8/826, 10/1041, 12/1263
New books : 4/350, 8/826
Reducing the general aviation fatality rate : 6/511
Good intentions and realities : 7/643
Will it affect us all in the end ? : 8/743
Why hamstring your own horse ? : 9/849
The US ATC dispute – Aftermath and implications : 10/953
No traffic on the street : 11/1067
Quite an eventful year : 12/1189

AUTHORS

Bialojan, B.
Electronic engine control for commercial aircraft: 4/313

Birch. Doug
Cargolux – Steady progress into the eighties: 2/165

Boyle, Dan
The flying hologram – latest in head-up display systems: 1/44

Bulloch, Chris
Turbulence detection by laser: 1/82
Composites coming of age: 2/143
Satellite operation for profit: 3/212
Echoes from AIRMEC – The designer's reponsibility for maintenance and reliability: 4/347
